

## Environmental Policy

Cherrytech, its Directors and its management team recognise their collective responsibility to manage the environmental impacts of its operational activities, products, and services to protect the environment for the benefit of future generations. This will be achieved by ensuring that the Company meets and applies all relevant environmental legislation and regulations.

We will promote best environmental practices by:

- effectively communicating the Environmental Policy and those objectives which are applicable to the working practices of the company - to all employees and any external personnel working on behalf of the company and to provide appropriate training where required.
- conducting our activities in harmony with society and nature without compromising the health and safety of our employees, neighbours and others that may be affected by our business.
- co-operating and responding to the views of interested parties on environmental issues where practicable and likely to result in an improved environmental performance.
- continually looking to improve the Environmental processes and procedures operated by the Company through internal monitoring.
- to identify and address the significant environmental impacts of all activities undertaken
- to develop objectives, targets, and management programmes relevant to operational procedures in order to minimise environmental impacts during normal, abnormal, and emergency conditions.
