

Reach Policy Statement

Cherrytech Ltd. is aware of and complies with both UK and EU Reach. UK Reach was introduced as part of the European Union (Withdrawal) Act 2018 and replicates the EU Regulation (EU) No 1907/2006, but with the changes required to make it operable within the UK.

REACH stands for the Registration, Evaluation, Authorisation and Restriction of chemicals.

Cherrytech Ltd operates in the downstream sector of the supply chain and as a company we have chosen not to participate in pre-registration. However, we will continue to collect data, where required, to support our on-going risk assessment process.

Cherrytech Ltd is unaware of any product that we either purchase or supply that contains a Substance of Very High Concern (SVHC). We also acknowledge that they have a duty to our customers to provide information to them if a product contains an SVHC in a concentration greater than 0.1 % by weight.
